

ABOUT

VASO is a drinkware brand that offers consumers a range of reusable, sustainable, and recyclable products.

Launched in 2019 with a single product line, VASO has grown to offer a range of solutions that provide an alternative to single-use plastics.

VASO

WHAT THEY ARE DOING

VASO straws are engineered in Germany from toughened glass. They are designed as an alternative to single-use plastic straws.

VASO's most recent product range offers a variety of reusable cups which consumers can use instead of disposable alternatives.

The range of reusable cups are available in a variety of styles and sizes, offering the perfect companion for enjoying your favourite drinks, from stemless champagne flutes to classic tumblers.
