WHAT THEY ARE DOING

Futures have mapped out their journey to carbon neutrality, from completing an evaluation of carbon footprint of the business by 2023, to using findings to deliver a strategy to embrace green initiatives and reduce their carbon footprint by 50% across all of delivery by Dec 2025 and neutrality by 2028.

In addition, there are plans for all staff to undertake environmental sustainability training and they are looking to widen curriculum areas to boost local skills, training and employment - aiming to create 300 new jobs in the clean, green low carbon economy.

GET IN TOUCH TO TELL US HOW YOUR ORGANISATION IS REDUCING ITS CARBON FOOTPRINT.
