

ABOUT

Based in Sneinton Market, Stewarts started hand roasting coffee in the 80s, they use a local delivery company WeGo couriers for all Nottingham wide deliveries, they use bicycles to get their coffee to local customers and electric vehicles for deliveries further afield .

Stewarts of Trent Bridge

WHAT THEY ARE DOING

Stewarts have invested in an exhaust filter for their coffee roaster which reduces CO2 emissions and other harmful particles by 60%.

At their cafe, Blend, they use the Too Good To Go app to minimise food waste. Leftover food is put on the app for people to collect at the end of the day at a reduced price.

Stewarts also encourage customers to bring reusable cups for takeaway drinks, giving them a 20p discount on each takeaway cup not used.

They are planning to work with a local supplier to champion a fully recyclable coffee cup exchange system across Nottingham City.
