WHAT IS HE DOING

Max is committed with SME Climate Hub to Max Taylor Design becoming carbon neutral by 2030, with the additional goal of becoming climate neutral even earlier, by 2027.

Max is reducing physical promotional materials by using a digital portfolio. Any other physical promotional materials are sustainable (e.g., pens, business cards) and are made from recycled materials and/or are easily recyclable.

Embracing a digital workflow, Max replaced physical agreements with clients with digital ones and prioritises service providers committed to carbon neutrality or emission reduction goals.
